

Introducing

Kansas Labor Information Center (KLIC)

In an effort to disseminate Labor Market Information data to our users in a more timely, efficient and self-assisted manner, we'd like to introduce our newest addition to the LMIS website:

<https://klic.dol.ks.gov>

A few tips and tricks to know before getting started:

- You do not need to register with KLIC. You may access the site as a guest. However, completing a free registration provides the following advantages:
 - Registration allows users to save personal information, settings and preferences that make using the system easier and quicker during future visits.

- After you create your user account, you will be able to save the information you have retrieved in the system. KLIC organizes this information in an easy-to-use file folder structure. This eliminates the need to conduct repeated searches for the same information, saving you time and effort.
- Registered users have access to:
 - Notices on new products and the latest releases
 - A personal file folder that contains information on saved searches, system settings and other information
 - A home page with customized news content
 - Searches using an expanded range of advanced search options
 - Research on possible career choices online
 - Reviews of available jobs and the ability to apply online

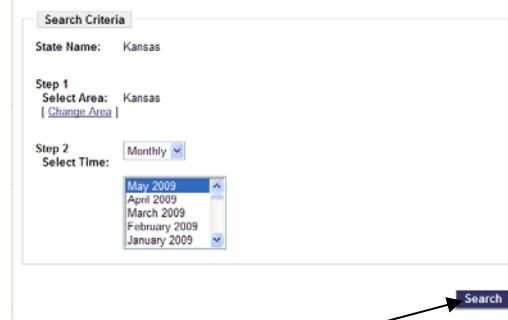

To complete Quick Search criteria, users perform the following steps:

1. Highlight or click a desired geographic area type.

- a. Click **Select** to save your selection(s). If users attempt to select a desired time frame without clicking Select, the system will display a pop-up alert similar to the following figure:

2. Select the time frame.

3. Click **Search** to generate a report based on your selection(s).

- If you select multiple geographic areas, you can only select one time frame at a time.
- If you select a single geographic area, you can select multiple time frames.
- You can export your data into Excel or a text file.

- You can graph certain data sets:

Monthly Not Seasonally Adjusted Labor Force, Employment and Unemployment data in Kansas for May, 2009

Civilian Labor Force	Employment	Unemployment	Unemployment Rate (%)
1,522,534	1,417,744	104,790	6.9

[Excel](#) [Text](#) [Print View](#) [Graph](#)

Source: Kansas Department of Labor in conjunction with U.S. Department of Labor

- If you know exactly what data you are looking for, you can select the *advanced search* option and refine your search.

- To select your geographic area using a map – choose **Option 2** by clicking on *Continue*
